

Old school blues ( Dale Blade and Fred Chapellier)

There was a time  
When life was so grand  
There was a time  
When my baby was there  
But now tha's she is gone  
I'm so all alone  
I'm looking back to see  
Where I went wrong  
Every day since she's been away  
My love for her is getting stronger every day

(Brigide)

I got the blues  
Old school blues over you  
I got the blues baby  
Old school blues over you

Verse 2

There was a time  
When we walked hand in hand  
Laughing and talking **reminiscing** about all our friends  
But that was a time  
When love was in the air  
But now my baby she gone somewhere  
Every day

Since my baby been away

My love for her is getting stronger

Every day

(Brigide)

There was a time

When we walked hand in hand

Laughing and talking **reminiscing** about all our friends

But that was a time

When love was in the air

But now my baby she gone somewhere

And I don't wanna be alone

(solo)

(Brigide)
